PROFILE

Frontend Developer with a passion for building responsive, high-performance web applications and crafting seamless user experiences. Proficient in modern JavaScript frameworks and UI libraries. Adept at translating design mockups into clean, maintainable code and collaborating with cross-functional teams to deliver scalable digital products.

WORK EXPERIENCE

Outham Technologies - Frontend Developer

June 2023 - July 2026

- Built and maintained production web applications using Angular, React.js, Next.js and TypeScript
- Developed reusable dashboards, forms, tables, workflows and role-based application modules
- Integrated REST APIs, authentication and backend services while optimizing performance and scalability

Khan Technologies - Web Development (Internship)

Feb 2022 - August 2022

- Built pixel-perfect responsive web interfaces using JavaScript, HTML5, CSS3, Tailwind CSS and Bootstrap
- Developed reusable UI components and translated design requirements into polished web experiences
- Debugged frontend issues, optimized layouts across browsers and collaborated with developers using Git

PROJECTS

Hisaar360 - Retail Management System

- Built a retail management platform covering inventory, products, sales and business operations
- Developed responsive dashboards and management workflows for day-to-day retail operations
- Implemented stock tracking, reporting and role-based features with API-driven data flows

AI-Powered Real-Time Chat Platform

- Built a full-stack real-time chat platform using React, TypeScript, Node.js, Express.js and MongoDB
- Implemented real-time messaging, presence, typing indicators and notifications using Socket.IO
- Integrated Google Gemini, AWS S3 and JWT authentication for AI chat, image sharing and secure access
